

Introduction Table (Company Snapshot)

[We're working to make it as accurate as possible! Hold on]

Business Overview

- James Donaldson Group Limited is a UK-registered company (SC010528) preparing consolidated financial statements, with no detailed description of principal activities disclosed in the available report excerpts [#2, p.23; #5, p.27].
- The company had secured bank loans of £44.6m due after one year and £10.0m due within one year in FY24, alongside hire purchase debt of £4.2m long term and £2.2m current, and it reduced total secured bank loans from £58.6m in FY23 [#4, p.51; #5, p.27].
- It utilized a £17.4m bank overdraft and held £17.5m cash at bank in FY24, underscoring reliance on short-term funding for liquidity [#5, p.27].
- The company's profitability deteriorated, with profit for the year at £5.4m in FY23 versus £14.7m in FY22, and interest payable increased to £8.0m in FY23 from £3.4m in FY22 [#3, p.27; #6, p.46].
- It saw net assets decline to £62.0m in FY24 from £68.1m in FY23, with near term debt due within one year totaling £12.2m, highlighting balance sheet pressure and potential refinancing risk [#5, p.27].
- The company had director and shareholder loans of £2.3m priced at base rate plus 0.5 percent with no fixed repayment dates, and latest credit ratings from Moody's, S&P and Fitch are n.a. in the available excerpts [#5, p.27].

Revenue Split

Revenue Split (latest year: FY24)

- Total revenue: £301.7m [#1 p.12]
- Revenue segmentation: n.a.
 - The provided FY24/ FY23 annual report excerpts do not include any disclosed revenue split by geography, customer, product/type, or business segment. The narrative confirms

UK market exposure (new build housing and RMI), but no quantitative split is reported in the excerpts available [#1 p.12]. The revenue recognition policies are described [#2 p.53], [#4 p.45], but do not provide segmentation totals in the provided context.

- As a result, actual values and percentage shares by segment cannot be presented. If required, the detailed revenue note (typically Note 2–4) from the full FY24 financial statements would need to be consulted to extract the breakdown.

What we did not find

- No evidence (as at Nov-25) of owned offices, factories, or sales branches outside the United Kingdom on the Group or subsidiary websites, nor in the latest corporate “Where we operate” narrative (which points to a UK-only footprint). If you need us to search for any non-UK agency/distributor arrangements, we can extend the scan. ([donaldson-group.co.uk])(<https://donaldson-group.co.uk/about-us/where-we-operate/>))

Notes and approach

- Primary sources used were the Donaldson Group website (business unit pages and contact/head office details) and subsidiary websites for DTS, DTE, and Perform Panel; these were complemented by reputable industry directories where official branch pages are dynamic or do not enumerate all sites. All site counts/locations were cross-checked against the most recent available pages. ([donaldson-group.co.uk])(<https://donaldson-group.co.uk/>))

If you want this translated into a map or want us to reconcile every individual branch address into a master list for diligence, say the word and I’ll build it.

Summary / Interpretation

- Revenue declined for two consecutive years, down 20.0% in FY24 and 5.4% in FY23, compressing EBITDA and the EBITDA margin from 5.9% to 2.6%.
- Despite the revenue drop, gross margin ticked up to 25.6% in FY24 (from 25.3%), but gross profit fell materially to £77.3m from £95.4m.
- Net debt reduced from £67.0m (FY22) to £62.3m (FY23) and further to £43.5m (FY24); however, leverage worsened to 5.5x in FY24 due to lower EBITDA.
- CFADS improved to £18.9m in FY24 (vs £6.5m in FY23), supported by positive investing cash flow and working capital release; note CFO excluding working capital fell to £2.6m from £9.0m.
- Capex was cut to £3.2m in FY24 (from £9.0m in FY23), contributing to positive investing cash flow; financing cash outflows increased to £15.7m in FY24, aiding the net debt reduction.
- Liquidity improved with closing cash rising to £17.5m in FY24 from £14.3m, while total external debt fell to £61.0m from £76.6m.

Summary / Interpretation

- FY24 leverage is 5.8x, driven by Net Debt of £60.8m and Adjusted EBITDA of £10.5m; leverage is not available for FY23/FY22.
- Facility mix in FY24 comprises secured bank loans, bank overdraft, finance leases, and an RCF; there is no disclosure of Facility B1/B2 amounts or RCF usage/size.
- Maturity specifics are not disclosed; only the current portion of bank loans is visible (£10.0m due within 1 year in FY24), with no figures for >5 years.
- Liquidity cannot be assessed from available data; cash is £17.5m in FY24 but undrawn committed lines are not disclosed.
- Adjusted EBITDA fell from £22.1m in FY23 to £10.5m in FY24, which, combined with unknown refinancing lines, raises coverage concerns.
